Dear Mrs Adams,

Thank you for your letter of 20th September in which you enquire about the present location of the inclosed list of objects. The predynastic objects so listed are in the City and County Museum, Lincoln.

There are a few predynastic objects in the Sheffield museum, but a different agency undertook their distribution.

Yours sincerely

G.B. Deakin

The number(s) which follow the name of the contributor, be it the B.S.A.E. or Prof. Petrie, is the museum accession number. The last two digits in the accession is the date, ex. 2115 - 25 (10 objects) - (19)25. Some of the pottery I was forced to ignore, so that although I did manage to include all the groups, the numbers written on some of the individual pieces are absent.
